

# BI-500 Rugged Handheld Scanner

## SPECIFICATIONS

PHYSICAL CHARACTERISTICS	
DIMENSIONS (W x H x D)	50 x 99 x 34mm / 2.0 x 3.9 x 1.3 inch
WEIGHT	Excluding battery: 80g / Including battery: 110g
DISPLAY	0.96" OLED, 128 x 64
INDICATOR (LED)	Four-color LED (purple, blue, red and green)
ALERT TYPE	Vibration, Beep sound
INPUT	Scan, up and down buttons, Reset Key
STANDARD BATTERY	Rechargeable, 3.7V, 1,130mAh, Li-ion
GPS	Integrated GPS
PERFORMANCE CHARACTERISTICS	
CPU	S3C2440A40, 400MHz
OS	Window CE Core 5.0
OS COMPATIBILITY	Implemented Bluetooth Profiles : SPP Profile : Windows XP, Vista, Windows 7 (32bit / 64bit), Windows Mobile 5.0 / 6.1 / 6.5, Android 2.1 / 2.2 / 2.3 HID Profile : iOS 4.0 and above (iPhone, iPad, iPod)
MEMORY	32MB RAM / 32MB ROM
INTERFACE	USB 1.1 Client
USER ENVIRONMENT CHARACTERISTICS	
OPERATING TEMP	-10°C to 40°C / 14°F to 104°F
STORAGE TEMP	-20°C to 60°C / -4°F to 140°F
HUMIDITY	90% non-condensing
DROP SPEC	5ft. / 1.5m drop to steel surface, 3 drops per 6 sides
RAIN/DUST PROTECTION	IP54
INTEGRATED RADIO	
WPAN RADIO	Bluetooth Class II V2.0 + EDR
DATA CAPTURE	
BARCODE SCANNER	1D&PDF417 Laser Class II or 1D&2D CMOS Imager (optional High Density Imager)
RFID READER (optional)	Integrated RFID, ISO 14443 A/B, ISO 15693

## ACCESSORIES

USB Cable

Wrist Strap

\* Accessories above come with product.

## KEY FEATURES & BENEFITS

### Smart Technology

#### Barcode Scanner, Bluetooth, GPS, RFID (optional)

The small and compact mobile device is equipped with 1D Laser / 2D imager, optional RFID reader with GPS capability. High Density (HD) reading is also available for reading smaller, condensed codes. Scanning barcode data and saving location data simultaneously, the easy-to-use integrated functionality brings a high level of both productivity and customer satisfaction.

### Extensive Compatibility

#### PCs, PDAs, Pads, Smartphones (Android Phone, iPhone)

Designed to be flexible with other applications, the Bluetooth barcode scanner can be compatible with Windows XP, Vista, Window 7, Windows Mobile 5.0/6.1/6.5, iOS and Android of mobile devices. Users can upload data all at once to PCs or to transmit real-time data instantly to mobile devices.

### Powerful Notification

#### 0.96" OLED, Vibration, Sound

The OLED display with full visibility and 3-key keypad deliver high visibility as well as easy asset control. The keypad with 'scan', 'up' and 'down' keys helps easy menu control in the display. Vibration feedback is supported as well as Buzzer and LCD alarms. Strong and loud beep sound with vibration feedback enables you to hear even when you are in unbearably noisy places like really loud factories.

### Rugged Ergonomics

#### IP54, 1.5m Drop, Small Form Factor

The small and lightweight easy-to-use device has a good sense of the grip and reduces hand fatigue in scan-intensive environments. With IP54 sealing, the BI-500 can withstand 1.5m drops to concrete and is sealed against rain and dust. Thanks to its in-built water proof design, unexpected showers or drizzles never affects the scanner. It always works even without product case.

### Energetic Battery Life

#### Long-lasting 1,130mAh Li-ion Battery

The high capacity of 1,130mAh Li-ion battery allows the scanner to last up to 60 hours straight on a full charge and it lasts approximately for 35 hours at a rate of 1 scan per minute. Delivering high portability with minimal power requirements, battery lasts long enough to do an uninterrupted full shift throughout the work day even while a bright OLED and GPS are on.
